Education

Bachelor of Computer Engineering

Jordan University of Science and Technology

2016-2020
Irbid, Jordan
GPA: 3.80 (Excellent)

Skills

Creativity
Critical thinking
Communication
Teamwork & Collaboration
Problem solving
Database Management
CPanel
OOP
Clean Code
SOLID Principles
Design Patterns
MVC
Agile
RESTful API
Third-party API integration
E-Commerce Systems
CMS
DevOps
Git(Version Control)
PHP
Laravel
Vue.js
Flutter
Dart
Firebase (Auth, Firestore, Realtime Database)
Livewire
HTML & CSS
JavaScript
Ajax
TailwindCSS & Bootstrap,
MySQL
SQL

Software Engineer with expertise in both Flutter and Laravel development. Adept at designing, developing, and optimizing mobile and web applications, integrating third-party APIs, and working within Agile methodologies. Strong background in RESTful API development, database management, and scalable application architecture. Passionate about writing clean, maintainable code and solving complex technical challenges. Seeking to leverage technical skills and innovative problem-solving to contribute to a dynamic development team.

Experience

Software Engineer (Laravel Full Stack Developer)
Fikra-it   Aug 2024 - present

- Designed and built RESTful APIs and API integration.
- Conducted project analysis.
- Used versions control(Git such as Bitbucket, GitHub).
- Deployed projects using CPanel (GoDaddy).
- Debugged issues and corrected errors.
- Worked within Agile methodology.
- Developed databases, and applications.
- Discussed project progress, collected feedback, and addressed concerns
- Participated in project planning.

Laravel Full Stack Developer
It-appsFactory   July 2021 - Mar 2024

- Built RESTful APIs and API integration.
- Used Git (Bitbucket, GitHub, GitLab).
- Deployed projects using CPanel (GoDaddy, Hostinger).
- Debugged issues and corrected errors.
- Worked within Agile methodology, familiar with Scrum.
- Developed databases, and applications.
- Discussed project progress, collected feedback, and addressed concerns
- Participated in client presentations and project planning.

Flutter Developer
It-appsFactory   Mar 2021 - July 2021

- Designing and Developing Applications.
- Following new trends in development.
- Fixing bugs.
- Collaborate with back-end developers and designers to improve usability.
- Dealing with Flutter Widgets efficiently such as AppBar, BottomNavigationBar, Carousel, ShowDialog, StatefullWidget, and StatelessWidget.

Course

Fundamentals of Deep Learning
Vice President, NVIDIA   Sep 2024

The course covered deep learning fundamentals, including neural network training, optimization, and CNNs for computer vision. It explored data augmentation, model deployment, and the use of pre-trained models to accelerate AI development. The focus was on practical applications and real-world impact.
